Executive Summary

Annually, the three state universities provide information to the Arizona Board of Regents regarding the distribution of financial aid.

The *Financial Aid Report*, as prescribed in Board Policy 4-300.C.2., provides the actual amount of financial aid awarded during the previous academic year and reports on compliance with specific Board policies related to financial aid.

The *Financial Aid Plans*, as prescribed by Board Policy 4-300.C.1, provide estimates of financial aid for the current and next fiscal year, including the number and value of scholarships and cash awards; their distribution among resident and nonresidents, needy and meritorious recipients, undergraduates and graduates; and gross and net tuition revenue.

The *Financial Aid Report* format uses the Common Data Set (CDS). The Common Data Set (CDS) initiative is a national collaborative effort among data providers in the higher education community and publishers as represented by the College Board, Thomson Peterson's, and U.S. News & World Report.

Highlights and Financial Aid Trends

The 5-year analysis highlighted below compares financial aid allocations and sources of funds between 2009-10 and 2013-14.

Increases in Financial Aid Resources:

- Over the last 5 years, total financial aid awarded increased \$471 million or 31%, primarily from increases in student loans and institutional financial aid.

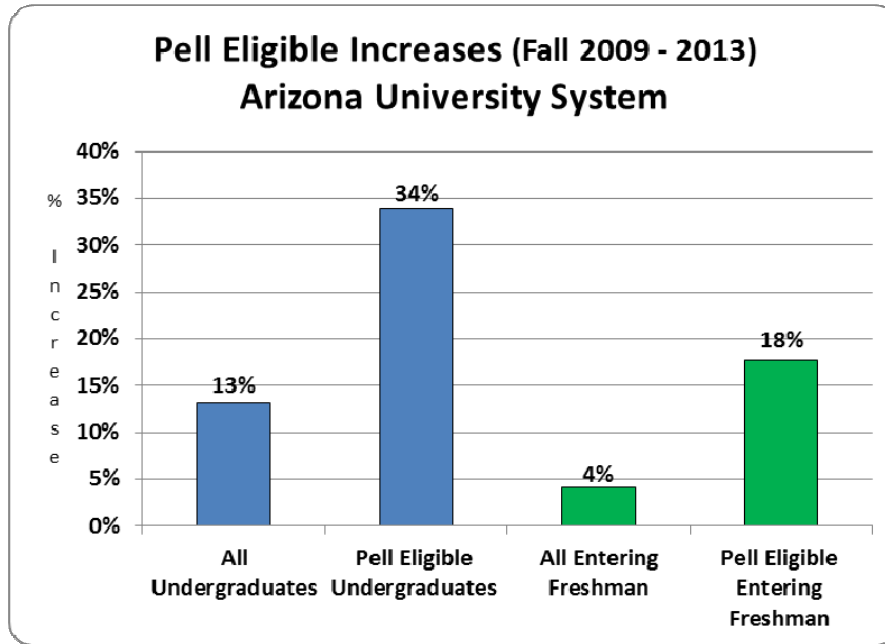

- The largest source and type of financial aid awards came from student loans, 46%; with the amount of student loans increasing 26% over the last 5 years.

More Students Receive Financial Aid:

- Over the last 5 years, the number of undergraduate students receiving aid increased by 18,204 or 17% while the number of minority undergraduate students receiving aid increased by 49%. During this same period, undergraduate enrollment increased by 13%.

Increases in the Number of Students Eligible for Federal Grants:

- The number of students eligible for Federal Pell grants, our neediest students, has increased dramatically since Fall 2009.

- Among all undergraduates, Pell students have increased by 34%, while the overall undergraduate enrollment increased by 13%. Among freshmen, the number of Pell eligible students jumped by 18% since 2009 while the overall freshmen enrollment increased by just 4%.

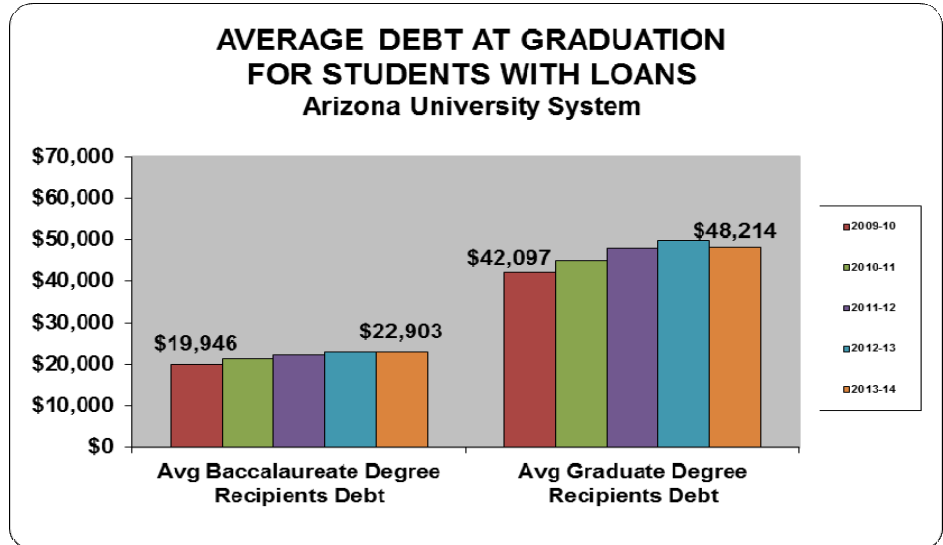

Minimal State Supported Financial Aid:

- Funded primarily by the Arizona Financial Aid Trust (AFAT) fund, the smallest source of financial aid continues to come from state appropriations, amounting to \$10 million or less than 0.5% of all sources. There are three sources of revenue for AFAT: state; students; and trust income. Student contributions equal 1% of resident undergraduate tuition rate revenues paid by all students.
- According to the 2012-13 National Association of State Student Grant and Aid Programs (NASSGAP) Annual Survey Report on State-Sponsored Student Financial Aid, Arizona ranks 37th in the country for state-funded financial aid, 49th for state funded grant dollars per population, and 43rd for state expenditures as a percentage of state fiscal support for higher education.

More Students Graduating With Debt:

Note: Average student debt at graduation includes only students who borrowed federal, state, and private loans (excluding parent loans) and filled out a Free Application for Federal Student Aid (FAFSA)

- The amount of debt at graduation is rising. Over the last 5 years, undergraduate debt has increased 15%, from \$19,946 to \$22,903. Graduate debt has increased 15% from \$42,097 to \$48,214.

- During the same period, the number of students with debt at graduation increased: a 16% increase (52% to 61%) in undergraduates and a 2% increase (54% to 55%) in graduate students.

Greater Emphasis on Need-Based Financial Aid for Undergraduates:

- Over the last 5 years, the percentage of need-based aid awarded to undergraduate students has increased.

- As a result of increases over the last 5 years in unmet financial need for undergraduate students demonstrating need, there was a significant increase in the percentage of need based aid awarded (from 65% to 72%) Plans for 2015 and 20016 project continued emphasis on need-based aid.

FY 2015 AND FY 2016 SUMMARY FINANCIAL AID PLANS FROM INSTITUTIONAL SOURCES

FINANCIAL AID AWARDS

- Estimated FY 2016 financial aid awards for the system totals \$531.9 million, an increase of \$14.7 million (2.8%) over estimated FY 2015. The increase is due to such factors as Board-approval of increases in tuition revenue set-aside and increases in the value of scholarships due to increases in tuition. The total value of FY 2015 and FY2016 financial aid awards by each university are depicted below:

SET-ASIDE FOR NEED BASED AID

- As prescribed by Board Policy 4-309, the universities are to set aside 14% of tuition revenues for need-based financial aid. The estimated amount of tuition revenue to be set aside by each university for need based financial aid for FY 2015 and FY 2016 is based on a minimum of 14%.

COMPLIANCE WITH POLICY FOR NEED & MERIT BASED AID

- According to Board Policy 4-300 B.3.a: “At least fifty percent (50%) of undergraduate Board of Regents’ aid for Arizona residents shall be awarded to students who have a demonstrated financial need. The universities must use a federally approved need assessment system to determine student financial need.”
- According to Board Policy 4-300 B.3.b: “At least thirty percent (30%) of undergraduate Board of Regents’ aid for Arizona residents shall be awarded to students on the basis of merit.”
- According to Board Policy 4-300 B.3.c: “Meritorious students with demonstrated financial aid may be included in the calculations described in both a and b.”

AUS	\$125.6	\$81.2	\$77.3	71.4%	55.8%

*The percentages for aid to needy students and for aid based on merit add up to more than 100%. Some of the aid that is awarded on the basis of merit goes to students who also demonstrate need. Because of the overlap between these two categories the combined total is over 100%

- Each university is in compliance with Board Policy 4-300 in that, of the resident undergraduate aid required by the Board, at least 50% is awarded based on need, and at least 30% is awarded based on merit.

APPENDIX

COMMON DATA SET FINANCIAL AID DEFINITIONS

Financial aid applicant: Any applicant who submits **any one of** the institutionally required financial aid applications/forms, such as the FAFSA.

Indebtedness: Aggregate dollar amount borrowed through any loan programs (federal, state, subsidized, unsubsidized, private, etc.; excluding parent loans) while the student was enrolled at an institution. Student loans co-signed by a parent are assumed to be the responsibility of the student and **should** be included.

Institutional and external funds: Endowment, alumni, or external monies for which the institution determines the recipient or the dollar amount awarded.

Financial need: As determined by the institution using the federal methodology and/or the institution's own standards.

Need-based aid: College-funded or college-administered award from institutional, state, federal or other sources for which a student must have financial need to qualify. This includes both institutional and noninstitutional student aid (grants, jobs, and loans).

Need-based gift aid: Scholarships and grants from institutional, state, federal or other sources for which a student must demonstrate financial need to qualify.

Need-based self-help aid: Loans and jobs from institutional, state, federal, or other sources for which a student must demonstrate financial need to qualify.

Non-need-based gift aid: Scholarships and grants, gifts, or merit-based aid from institutional, state, federal or other sources (including unrestricted funds or gifts and endowment income) awarded solely on the basis of academic achievement, merit, or any other non-need-based reason. Non-need-based aid that is used to meet need should be counted as need-based aid.

Non-need-based self-help aid: Loans and jobs from institutional, state, or other sources for which a student need not demonstrate financial need to qualify.

Scholarships/grants from external sources: Monies received from outside (private) sources that the student brings with them (e.g., Kiwanis, National Merit scholarships). The institution may process paperwork to receive the dollars, but it has no role in determining the recipient or the dollar amount awarded.

Work study and employment: Federal and state work study aid, and any employment packaged by the institution in financial aid awards

GLOSSARY OF TERMS

Aid to Needy Students:

Aid awarded to students who demonstrate financial need. May be awarded on the basis of merit.

Aid to Non-Needy Students:

Aid awarded to students who do not demonstrate financial need. May be given for academic, artistic, or athletic talent, or on the basis of specific criteria such as being the child of a peace officer slain in the line of duty.

Demonstrated Need:

The difference between the price of attendance and expected family contribution determined by a standard federal methodology that calculates expected family contribution and defines items to be included in the price of attendance.

Employment:

Employment is considered a form of financial aid when the job is on campus and/or funded wholly or partially by the federal or state government or the institution. Graduate assistantship earnings are included in the employment aid category. Based on need, the federal government provides work-study dollars.

Expected Family Contribution:

The amount a student and family are expected to pay toward the student's education.

Federal Financial Aid:

Financial aid administered by the U.S. Department of Education. The major programs are: Federal Pell Grants, Federal Supplemental Educational Opportunity Grants, Federal Work-Study, Federal Perkins Loans, Federal Stafford Loans, Federal PLUS Loans, and Federal Direct Student Loans.

Financial Aid Package:

The total financial aid a student receives. Federal and non-federal aid in the form of grants, waivers, loans, scholarships, work-study, and other government/institution-funded employment are combined into a "package" to help meet the student's need.

Gift Aid:

Any financial aid that does not have to be earned or repaid (i.e., scholarships, grants, and waivers). The majority of private/other aid is gift aid.

Grants:

Grants are generally distributed based on financial need. The majority of grant funds are provided by the federal government (e.g., Pell, State Student Incentive Grant, etc.). The Arizona Board of Regents Financial Aid Set-Aside and Arizona Financial Aid Trust grants are also included in this category. Grants need not be repaid.

Institutional Aid:

Aid provided by the institution a student is attending, including waivers, employment, part of the Financial Aid Trust Fund, Regents Financial Aid Set-Asides, and some scholarships.

Loans:

Loans are monies borrowed that must be repaid with interest. Some federally funded loans are subsidized by the federal government, which pays the interest during the time a student is enrolled.

Tuition Scholarships:

Tuition waivers, which can be awarded for either resident tuition or nonresident tuition, that are annually allocated and awarded following ABOR Policies 4-301 and 4-302, which addresses tuition waivers.

Cost of Attendance:

The total estimated expense for a student to attend college during a specific time period, usually one academic year. It includes tuition and fees, room and board, transportation, books and supplies, and other personal expenditures and miscellaneous expenses.

Scholarships:

Gift money based upon a special ability such as high grades or artistic merit given to students enrolled in certain academic programs or awarded to students based on financial need.

Self-Help Aid:

Financial aid that is generated by the student and/or family (i.e., loans and student employment).

Waivers:

Waivers may exempt a student from paying all or a part of tuition. They generally do not involve the actual transfer of funds but are income foregone by the institutions. A very small proportion of waivers are funded by non-university sources.

2 Student numbers are calculated using headcount. Full waiver equivalent's can be derived by dividing the amount of aid by the value of a full waiver.

3 FY2015 & FY2016 reflects no estimated increase in resident tuition.

4 Duplicated above - Institutional Aid for AZ Resident, Non-Transfer students
